**Level 2: Essential Oils to Expand & Whole the Self**

with Greg Hitter, Ph.D.

**Petaluma, CA - Sept. 16th (Sat.) & 17th (Sun.), 9:00-5:00**

***This Experiential Workshop...***

*This two-day workshop experience (9am-5pm) involves brief discussion with demonstration and practice in essential oil application to protect and heal (whole). The methods evolved from postmodern and ancient approaches to **healing states of consciousness** and the **body/mind/energy system** that consciousness directs toward “dis-ease” or well being.*

***Level 1:** the use of oils to **release cell memory and emotional trauma**, will focus on **the Feelings Kit** from **Young Living Essential Oils (YLEO)**, and other oil blends and singles. The **Power Tap™** release tool will also be taught.*

***Level 2:** focuses on oils in procedures to **expand consciousness and whole (heal) the Self**, and will present **the 7th Heaven Kit (YLEO)** and single oils such as rose and frankincense. The **Ritual of the Rose Cross** will be taught.*

***Experience/Explore DNA Repatterning, Self-Expansion, and Well Being ...***

*“ understand how **vibrational aids** (such as essential oils and the **Power Tap™**) and **consciousness** can effect the DNA nucleic-acid receptor sites to repattern DNA/RNA structure, thus illuminating “**cell memory**” and releasing trauma.*

*“ explore how **essential oils** (YLEO single oils and blends) can heal trauma and negative states of emotion & thought, by vibrationally aiding to integrate the fragmented “Self” toward **wholistic body-mind wellness**.*

*“ learn and experience the **Power Tap™** and practical **essential oil** uses that yield **immediate** and powerful results.*

*“ explore the essential oil blends in Dr. Young’s **Feelings Kit** & **7th Heaven Kit** (from Young Living Essential Oils), as they support and positively influence emotional trauma and undesirable mind/body states that depend on the vibrational fields created by fragmentation or wholeness of ones consciousness, conscious being, or “Self.”*

*“ learn special procedures (involving essential oils) to balance, clear, heal, and protect yourself energetically, that also powerfully support **whole (well) being** and your healing efforts, Self-integration, and growth & abundance.*

***About the presenter...***

*In addition to a Ph.D. in psychology, with extensive training and practice in depth psychotherapy, Greg Hitter’s background includes the use of essential oils for over twenty-five years. He has developed an expanded view of the psyche from his background in mythology, ancient wisdom, quantum physics, Chaos science, and consciousness studies — from which he developed a new approach to healing fragmented consciousness and the body/mind, called **the SelfQuesting Approach™**, which uses vibrational aids and methods such as essential oils and the **Power Tap™**.*
